

BBCR Home Maintenance Program

MAKE A DIFFERENCE

Do you enjoy gardening or home maintenance and being outdoors?

The Bay & Basin Community Resources Home Maintenance Program offers a friendly helping hand with a range of small maintenance tasks and garden clean ups. We require volunteers to help deliver this program to older people living in the Bay & Basin area.

If you want to be outdoors, be part of a great team, and help older people in your community then apply to become a volunteer. If you are interested in further information on becoming a volunteer contact us on 4443 7681.

This service is provided through the Commonwealth Home Support Program funded by the Australian Government.
